

EasyPull.

A quick and easy way to manage your shelves.

Aluminium frames positioned on the shelving to guide and facilitate the movement of the products in front of them.

Easy to use, simply lift and pull the **EasyPull**. towards the front of the shelf, then return the frame to its original position. Products are returned to their original position for an orderly display.

⊘ Transparent ● RAL 9002

Adjustable in width and available in different lengths, they can be used in almost any category, but are ideal for tins, bottles and jars.

Why choose **EasyPull**.

AN OPTIMISED SALES SPACE

Products are aligned, within easy reach and well in front of your price display.

IMPROVED STOCK MANAGEMENT

Avoid overstocking and broken products on the shelves.

INCREASED PRODUCTIVITY

Filling and turning time is reduced, limiting the need to line up products.

DESIGN

Material: aluminium + ABS.
Colour: grey.
